

PERGOLA AWNING

Senator

Guests fill the outside serving area at the same time as the first rays of sun carries signs of spring. Many of these guests want to be seated outdoors, until it gets to cold in the fall, and the leaves start falling. An awning over an outside serving area therefore has several functions. The Senator awning gives you and your guests shade on hot summer days, at the same time, it's a cosy place to sit during the colder seasons.

The awning can also be printed and used to carry messages from sponsors.

PERGOLA AWNING Senator
