

# TERRACE AWNING

## FA22 & FA24

FA20 awnings are specially developed for the smaller terrace or balcony, with all the characteristics that has proven the high quality and durability of the Hunter Douglas Scandinavia awnings throughout the years. The new design of the arms together with Dyneema® tape over the elbow, gives a fabric tension out of the ordinary.

## FA22

FA22 is an open, compact awning. This is the entry product in our new 20-series. FA22 is equipped with traditional end caps and gives a lot of awning for a smaller investment.

## FA24

FA24 is an open, compact awning with modern design. The awning is equipped with specially designed end caps that connects the square tube with the roller tube to create a modern look.

## Operation

The awning is crank operated as standard. Optionally, operation can be made with motor. The motor can be supplemented by automation, ie remote control or sun and wind automation.

## Mounting

The awning can easily be mounted directly onto the wall or roof.

## Extra

On both models, there is an option of a protective roof.

## Awning fabric

Choose from a wide collection of both plain and striped fabrics.

## Awning Hardware

The awning hardware with details can be ordered in 3 standard colours: White, Grey and structured Black. With longer delivery time, any RAL colour is available.
